WHAT IS AN INTERNSHIP?
An internship is a form of experiential learning that integrates knowledge and theory learned in the classroom with practical application and skills development in a professional setting. Internships give students the opportunity to gain valuable applied experience and make connections in professional fields they are considering for career paths; and give employers the opportunity to guide and evaluate talent. -source NACE

We encourage students to begin searching for an internship at least one semester or 4-6 months prior to needing the internship.

WHAT IS AN APPROPRIATE INTERNSHIP SITE?
